# Lens 2: Professional Learning Communities

Vision: Educators working collaboratively to achieve better results for student learning.

## THREE BIG IDEAS

Focus on learning

Build a Collaborative  
Culture

Focus on Results

# Green or Rotting? A Viable PLC?

What do we want all students to learn?

Essential standards, and learning targets

Understand collectively each standard/learning target & develop pacing guide

Lesson/unit development

How will we know when each student has mastered the essential learning?

Develop common assessment, determine proficiency and set SMART goal

Teach, differentiate, check for understanding

Give common assessments

Analyze data to improve both student learning & teacher practice

Plan based on common assessment results

How will we respond when a student experiences initial difficulty in learning?

How will we deepen the learning for students who have already mastered essential knowledge and skills?

Targeted reteach - individualize, small group

Extend and deepen

Re-Assess learning & practices

Produce a product based on standard

# Lens 3: Well-Being

Vision: Empowered, healthy, and thriving teams where everyone belongs.

# Cascades: Strategic Plan, Lenses and Big Rocks

**Multi-Level Systems of Support:  
Implement Academic (RtI) and  
Behavioral (PBIS) Systems and Needs**

**Assessment/Grading Practices:

What are your beliefs about the significance of education?

Do you have a life commitment to education?

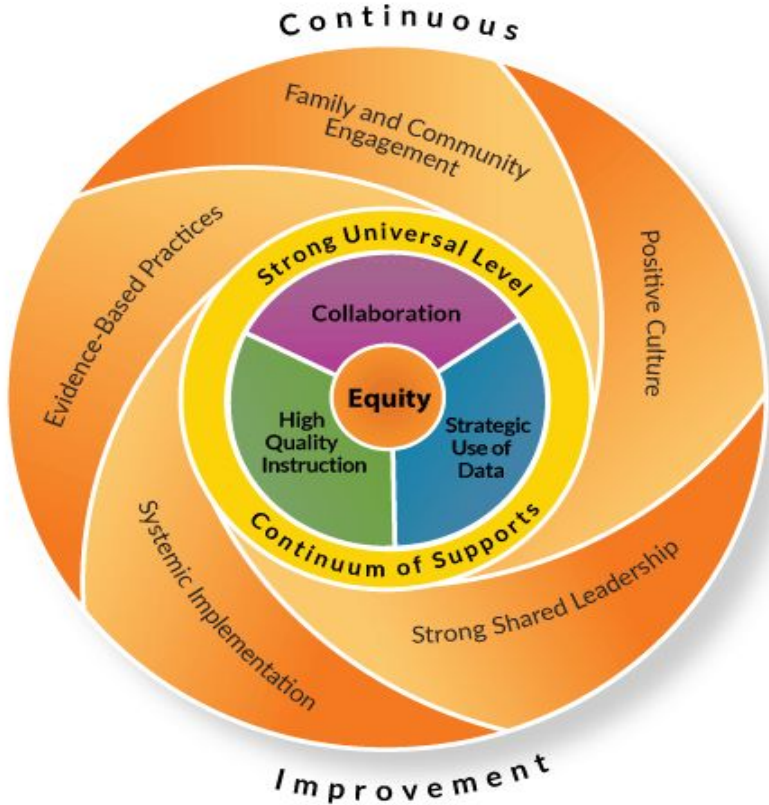

Are there certain beliefs about which you have no intention of ever changing your mind?

If so, what are those belief?

## Two Questions To Consider

1. Why are you integrating the technology into the classroom?
2. How will integrating the technology into the classroom and your instructional practice positively affect student learning?

## Next Steps

- Movement towards a 1:1-like atmosphere at the high school
- Decide upon a Learning Management Platform (e.g. Google, Haiku, Schoology, etc.)
- Decide upon a Web Filtering System and Student Monitoring System

**Vision: By the 2023-2024 school year, all students in grades 5-12 will have access to a mobile learning device and K-4 will have increased access**
