

WHAT'S NEW?

On the first floor of the addition, gypsum wall board is being hung on the walls and painting has begun in the bathrooms. Tile is also being placed in the first floor bathrooms. On the second floor, ceiling grid is being placed and painting has started in the classrooms. Window installation and glazing in the courtyards are nearing completion, while roofing work is complete over the classroom portion of the addition.

In the cafeteria / commons area of the addition, masons are building walls for the future servery, bathrooms, and concessions. Roofing and work to enclose the addition is ongoing. Please see below and the following page for photos from the progress thus far.
